It is hoped as the warmer weather kicks in the present Coronavirus problem will be under control and we can re-assess resuming our Social Programme especially those that are in busy Public Spaces.

We are already suffering with some Members in self isolation or in the confirmed case zone of coronavirus, and over 90% of our members are in the Highest Risk group with age, and as the adverts put it - 'Have Serious Underlying Health Issues'.

***We are sorry to advise of this state of affairs due to circumstances beyond our control. I will ensure none-email Members are kept in the loop but all Email connected Members will be advised on updates and the monthly newsletter will advise of any change of circumstances which allow us to resume normal services.***
